MySQL, PLSQL

PROJECTS / OPEN-SOURCE

NEWS-ARTICLE-SUMMARIZATION | [LINK](#)

Python

A web is an information system that stores an enormous number of articles and other online resources. We generally access these documents and resources by Uniform Resource Locators (URLs) over the Internet using that we summarize all the latest information available with a click of a button.

URL-SUMMARIZER | [LINK](#)

JavaScript, HTML

A Brave browser extension that summarizes the current tab URL into 500 to 1000 characters using the SMMRY API and Python, HTML, and JS technologies.

RPA-PROJECTS | [LINK](#)

UiPath

you can find a collection of my Robotic Process Automation (RPA) projects. Each project is designed to automate specific tasks and processes, making your work more efficient and error-free.

CERTIFICATIONS

- Certified in Linguaskill Business English - **CAMBRIDGE ENGLISH**
- Machine Learning with python - **VERZEO**
- RPA Developer Advanced - **UIPATH ACADEMY**
